### **APPLICATIONS:**

Diocyladipate is a plasticizer for the plastics industry. It is used for the production of foils, coating plastisol materials, production of footwear and hoses.

### **PACKAGING-STORAGE:**

It is transported in stainless steel tankers, provided by either the beneficiary or the supplier. The product should be stored in clean, dry and tightly sealed reservoirs, in order to avoid contamination with dirt and moisture.

### **SAFETY MEASURES:**

Diocylphthalate is a toxic product. Before handling and using this product, the personnel should be acquainted with hazards incurred.
